PARTNER RESOURCE GUIDE

FROM OUR HANDS TO YOURS SINCE 1872

SEYMOUR MIDWEST

STRUCTRON SEYMOUR KENYON Toolite MIDWEST RAKE LINK HANDLES

FAMILY OWNED AMERICAN TOOL COMPANY SINCE 1872

ABOUT US

Dear Seymour Midwest Partners,

If you're looking for a commodity tool company, we're sorry you've come to the wrong place. However, if you're looking for a **Partner** who has never stopped engineering and manufacturing long handled and **task specific tools**, well, you've come to the right place.

Our **commitment to excellence** has not wavered since 1872 when the Company we're proud to lead today was founded. In an era of endless value engineering, product rationalization & increasingly anonymous companies, we're delighted to lead **a team of passionate employees that are dedicated to being toolmakers.**

At Seymour Midwest we start every day with two very simple goals, both of which start with you our Customers and Partners:

- **Delight the Customer**
- **Outperform the Competition**

We trust you'll find that our **Partner Resource Guide** meets both of our goals and ultimately makes it **easier for you to buy, your customers to sell, and the end-user to select the right product**.

There is a lot of energy across the Seymour Midwest business as we look toward the future. We're excited about our prospective outlook and look forward to our continued partnership.

In the meantime, we look forward to seeing you at upcoming tradeshows and partner events. Don't hesitate to reach out if there is anything we can do to help you grow your business.

Your partnership and loyalty to Seymour Midwest and our family of brands is appreciated and valued!

Wheelbarrows
- *Wheelbarrows* 94-96

LIMITED WARRANTY

At Seymour Midwest we're proud to continue our more than **150 YEAR HERITAGE** by designing, manufacturing and selling tools offering outstanding performance year-after-year. We stand behind our products by extending to the **original purchaser a warranty that our products will be free from manufacturing defects in materials and workmanship during normal use**, subject to the qualifications listed below.

The typical life of a tool is determined by the conditions and level of use. Frequent, daily use will wear out a tool faster than infrequent, occasional use. **Defects in materials or workmanship typically arise early in the life of a tool.** Our **Limited Warranty** does not cover normal wear, lost parts, damage inflicted intentionally by the user, or failures due to accident, misuse, abuse, negligence, alteration or modification.

At Seymour Midwest's discretion, Seymour Midwest will replace or issue credit for any tool or accessory that our examination determines to be within this warranty. **Tools or accessories which are abused or worn out from normal use are excluded from this warranty.**

The length of warranty per tool series is listed in the chart below subject to the above criteria.

SERIES	WARRANTY
Structron® S800 SuperDuty™	Limited Lifetime
Structron® S700 SpringFlex™	
Structron® S600 Power™	
Structron® S600 Safety™	
Seymour® S550 Forged™	
Seymour® S500 Industrial™	
Midwest Rake® S550 Professional™	
Kenyon® S550 Irrigation™	
Seymour® S400 Jobsite™ / S400 Safety™ / S400 Workcrew™	Limited 15 Year
Seymour® S300 DuraLite™ / Toolite® S550 Mud & Muck™	Limited 5 Year
Seymour® S200™ / Link® Handles	Limited 1 Year
All Striking Tools	Limited 1 Year

**Certain exclusions apply to all series levels.*

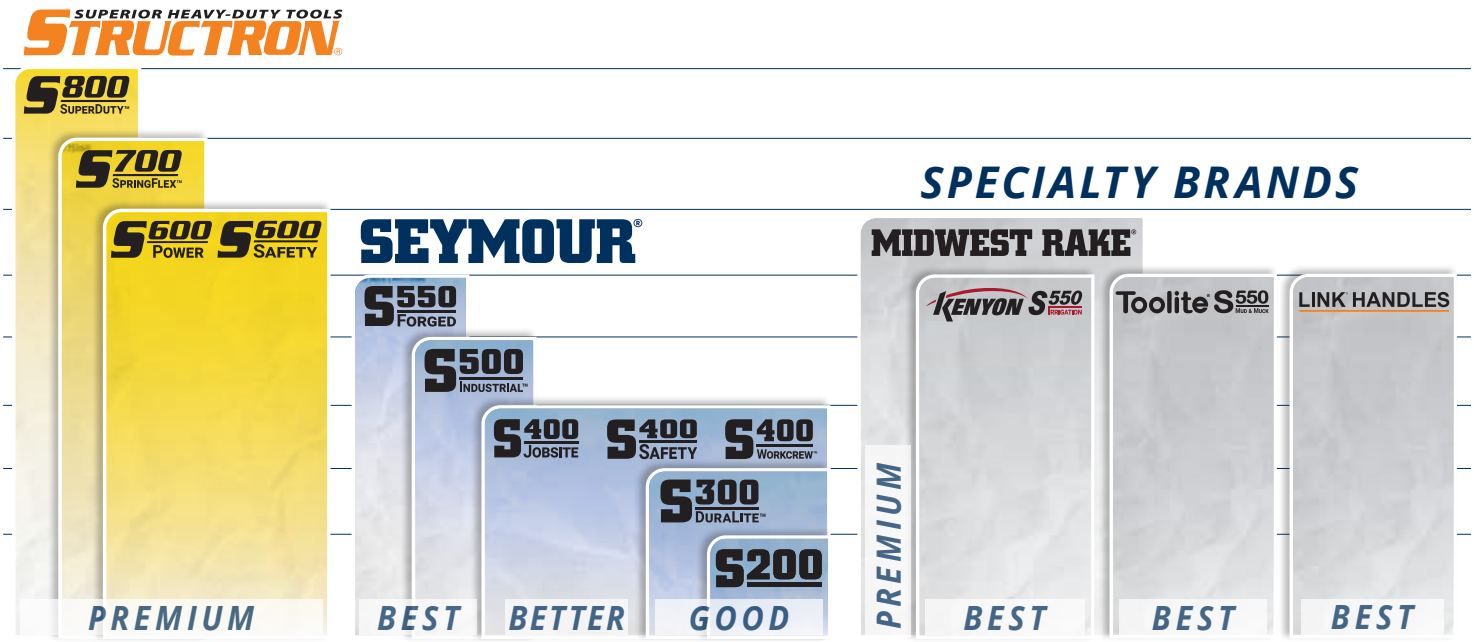

How to Make a Warranty Claim: For all warranty claims, simply return the tool along with your dated **proof of purchase** to the place of purchase to initiate the replacement process. Please have the following information available when making a warranty claim: brand, item number, date and proof of purchase and explanation of how the tool broke.

Repair or replacement is the sole remedy available to the end-user or reseller.

Seymour Midwest expressly denies any liability for damage, injury or expense arising directly or indirectly as a result of the manufacture, sale, delivery, resale, repair, use or misuse of the products.

**For the most up-to-date warranty information, please visit SeymourMidwest.com.*

SEYMOUR MIDWEST BRAND HIERARCHY

Our brand hierarchy is intended to provide a **quick and easy visual reference** for where each of our products fit in our hierarchy while also providing **visual continuity at the point-of-purchase**.

STRUCTRON® & SEYMOUR® BLADE LABELS

The above blade labels illustrate the attributes for Structron® and Seymour®, our two primary long handled tool brands. Additionally, the blade labels summarize the Fiberglass, Safety and Hardwood options available by series.

COATINGS

There's a reason we don't look like other companies in our category – we still offer more tools for more specialty applications and markets.

Numerical Hierarchy: The brand hierarchy chart on page 5 is your "decoder ring" for the brands that call Seymour Midwest home. Our numerical hierarchy features a **Good / Better / Best / Premium** line-up. There's nothing one-size-fits-all about our tools, and making sure there is clear product differentiation as you move up and down the hierarchy means **easier more informed selling and purchasing**.

Organization:

- **Tools are organized by type to allow for ease of navigating the document:**
  - All Round Points are combined into four pages so you can easily survey all available options. The same goes for Square Point Shovels / Scoops / Rakes and the rest of our product line.
- **Tools are organized within their tool type by numerical hierarchy, we always start at the Premium (Structron®) level and work to our Good (S200) product offering.**
  - S800 SuperDuty™ > S700 SpringFlex™ > S600 Power > S600 Safety™ > 550 Forged™ > S500 Industrial™...
- **We've continued with a grid format for easy-to-digest product attribute information.**

Toolmakers not Commodity Distributors: Ever notice why some tools feel stronger than others? Chances are it starts with our contoured precision lathe-turned American hardwood handles. **Since our founding in 1872 we've been Toolmakers.** That's a legacy and heritage that we strive to live up to everyday. We're not a manufacturer of a commodity and as such, we're willing to 'sign-up' to some very specific information when it comes to the tools we sell.

Toolmakers & Specifics: That's the second part of our **Partner Resource Guide** – the **specifics** of the tools we offer. The 'grids' on each page are full of the details that help all who use this document better understand what they're

WWII – Seymour Joins War Effort Manufactures Starter Cartridges for Airplanes, Magazines for Small Arms & Wooden Wheelbarrows

MIDWEST RAKE COMPANY LLC

OVER 150 YEARS OF TOOLMAKING

1872
Seymour® founded
- Earliest Products were Snaths, Scythes & Wagon Wheels Spokes

1900
Early 20th Century
- Seymour® Acquires Hall Manufacturing to Expand Post Hole Digger & Auger Product Lines

1922
Seymour® Acquires Dunn Edge Tool of Maine & North Indianapolis Cradle Works

1940
1940s – Seymour® Expands Product Line to Include Hog Rings and Specialized Agricultural Tools

1950
1950s – Seymour® Launches Fireplace Products & a Snow Sled for Children – the "Flying Cloud"

1950s-1990s – Seymour® continues to expand into Digging & Long Handled Tools

1990
1990 – Midwest Rake® Founded

looking at. At the point-of-purchase, we've also invested in product labeling that we are confident will:

- **Provide a harmonious product appearance regardless of the series offered at the point-of-purchase.**
- Provide specific information, not generalities that will enable a more informed purchase. We're firm believers that a confused shopper or buyer isn't going to go for the more expensive item if there is nothing there to explain the difference.

Look for the blade labels on the tools throughout the document. Again, we're toolmakers so we're happy to sign-up to the specifics.

Seymour Spans the Globe: We're proud to sell our product around the world and have updated all tools that feature artwork with **trilingual English, Spanish & French** descriptions to best meet the needs of the market segments and global customers we serve.

It's All About the Brands: We're proud of our timeline over the past 150 years and of the brands that call Seymour Midwest home. While we have multiple brands, when they're displayed in a store or planogram it's imperative that **all brands look like they belong to the same family.**

All the Tools for Any Task on a Single Purchase Order! Partners in Profit is a clever saying but with Seymour Midwest we provide a unique opportunity to expand our business together. **Coatings tools from Midwest Rake® are best in class and an excellent incremental opportunity. Firestarter, aquatic tools, Toolite® Mud & Muck™ shovels, Structron® S700 SpringFlex™, Sports Turf maintenance, the list goes on and on.** Need some help – let us know and we'll gladly assist.

Merchandising: Updated branding – make sure you have our latest artwork for your promotions & merchandising! Contact your Seymour Midwest Account Manager to learn more and ensure your content is up-to-date and meets proof of performance standards.

THE STRUCTRON® ADVANTAGE

BEST-IN-CLASS CONTRACTOR TOOLS

Since 1979 the Structron® brand has led the industry. Nearly indestructible, Structron® tools are always there when you need them the most.

ASSEMBLED IN THE USA

with American hands in Indiana.

POWERCORE™ SOLID FIBERGLASS COMPRESSION ROD

Extends 13 inches from the handle into the shank and blade for maximum strength at this critical stress point.

PROGRIP™ COMFORT GRIP

Made of durable textured vinyl with a non-slip surface for a secure grip with excellent shock-absorbing protection. Unique double-wall construction for greater durability. Weather resistant.

HIGHEST QUALITY BLADES

• 10 Gauge • Forged • SpringFlex™ • 14 Gauge

PERMAGRIP™ STEEL COLLAR

A rivetless ring of steel connects the shovel neck, handle and fiberglass PowerCore™ rod, making it one solid unit. Provides the strongest head-to-handle connection.

SAFETY YELLOW REINFORCED FIBERGLASS HANDLE

Strong yet lightweight industry leading .130" thick fiberglass handle provides maximum durability and visual impact and the strongest fiberglass.

TOTAL TOOL STRENGTH

SHOVEL WITH FIBERGLASS HANDLE	WEIGHT	HANDLE LENGTH	CONNECTION SYSTEM	HANDLE/HEAD INSERT	DYNAMIC TOOL TEST POUNDS TO FAILURE
49730 / S700	4.9 POUNDS	48"	CRIMPED FERRULE NO RIVET	FIBERGLASS POWERCORE™	250 POUNDS
COMPETITOR 1	5.0 POUNDS	49"	PRESS COLLAR	METAL TUBE	218 POUNDS
COMPETITOR 2	4.8 POUNDS	46.5"	PRESS COLLAR	METAL TUBE	202 POUNDS
COMPETITOR 3	4.5 POUNDS	47.5"	PRESS COLLAR	METAL TUBE	201 POUNDS

DYNAMIC TOOL TEST

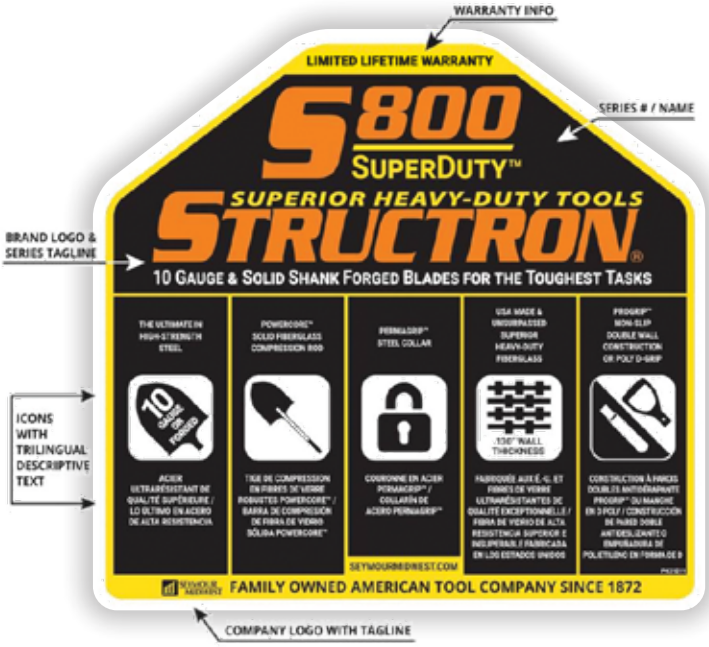

UNSURPASSED, UNDISPUTED, UNRIVALED… IN A WORD, UNDENIABLE.

Meet the tools that have no equal: Structron®

Structron® is unlike any tool you've ever used or sold. Experience the power and **profitability** that comes with selling the Structron® family of tools. You might even agree, it's unfair to the competition.

STRUCTRON® LABELS THAT IMPROVE COMMUNICATION OF SPECIFIC PRODUCT & SERIES ATTRIBUTES

SUPERIOR HEAVY-DUTY TOOLS STRUCTRON® S800 SUPERDUTY™

10 GAUGE & SOLID SHANK FORGED BLADES FOR THE TOUGHEST TASKS

We won't take it personally if you never buy forged shovels again. In fact, when your customers experience our one of a kind 10 Gauge shovels, we're confident they'll forget about forged as well.

Stronger, lighter and nearly unbreakable? The Structron® 10 Gauge **Caprock and Impact shovels** are game changers for tasks that have historically called for a forged tool.

Also up to the task and featuring premium Structron® fiberglass and our PowerCore™ for unrivaled strength the rest of the S800 SuperDuty™ line-up all feature the original forged blades.

SUPERIOR HEAVY-DUTY TOOLS STRUCTRON® S700 SPRINGFLEX™

SPRING STEEL FLEXES BUT WON'T BREAK – THE ULTIMATE SHOVEL

Some tools are just plain superior and the S700 SpringFlex™ are those tools.

When tasked with creating **the ultimate shovel** our engineers specified **SpringFlex™**. Manufactured to our **exacting standards** and exhibiting the attributes of spring steel, paired with the strength of the hallmark Structron® Solid Fiberglass Compression Rod, these eleven shovels bury everything else out there. Backed by a limited lifetime warranty, these tools are the textbook definition of "investment grade."

SPRINGFLEX™

SUPERIOR HEAVY-DUTY TOOLS STRUCTRON® S600 POWER

SUPERIOR STRENGTH FOUNDED ON EXCELLENCE IN DESIGN, ENGINEERING & MANUFACTURING

Looking to Differentiate? Guaranteed to Outperform!

Don't ever confuse Structron® with other products in the market. The same goes for the S600 Power™ series. 14 Gauge blades are out there, but the competition does not offer a **Solid Fiberglass Compression Rod – what we call the PowerCore™**.

PermaGrip™ – A rivetless ring of steel connects the shovel neck, handle and fiberglass insert, making it one solid unit. Provides the strongest head-to-handle connection.

SUPERIOR HEAVY-DUTY TOOLS STRUCTRON® S600 SAFETY

BE SEEN, BE SAFE – HIGHEST VISIBILITY SUPERIOR STRENGTH TOOLS

Our Structron® Safety™ line is an excellent addition to any construction crew looking to **increase worker visibility and safety during daylight and nighttime hours**. Like high visibility safety clothing, Structron® Safety™ tools are safety green and utilize (2) 3M® Series 3300 tape accents made of **highly retroreflective microprismatic markings, designed to enhance visibility and detection and exceed the reflectivity values of ASTM Type III.**

SEYMOUR® S550 FORGED

SOLID SHANK FORGED BLADES

If the "classic" tool exists, it's a forged blade with a hardwood handle – that's S550 Forged™.

Tools in this category include:

- Shovels
- Drain Spades
- Bow Rakes
- Specialty Tools (such as Eye Hoes and SuperScrapers™)

SEYMOUR® S500 INDUSTRIAL™

HEAVY-DUTY INDUSTRIAL GRADE TOOLS

Two words describe the S500 series: **Industrial & Specialized**.

Industrial means these tools will be in the **Industrial Supply houses** along with the other 12 and 14 Gauge blades.

Specialized can be found in the sheer volume of items we offer that can't be found elsewhere in the market. Take scoops for example: multiple handle lengths & heavy aluminum blades mean you're selling the absolute best when you carry S500 scoops. The same goes for other **task specific tools:** Steel Augers, Specialty Post Hole Diggers and Fencing Tools. **Our extended socket with extended boot step shovels also call S500 Industrial™ home.**

SEYMOUR® S400 JOBSITE

SEYMOUR® S400 WORKCREW™

CONTRACTOR GRADE CONSTRUCTION, COMPONENTS & CRAFTSMANSHIP

Dedicated labeling for both fiberglass and hardwood models ensure that at the point-of-purchase the product are clearly explained – nothing cookie cutter about the labeling or the S400 Jobsite™ tools!

Fiberglass tools feature:

- **PermaGrip™** – A rivetless ring of steel connects the shovel neck, handle and fiberglass insert, making it one solid unit. Provides the strongest head-to-handle connection.

- Contractor grade fiberglass handles with **heavy-duty and durable fiberglass insert for added strength.**

S400 Jobsite™ and S400 Workcrew™ are an extremely comprehensive assortment of tools. Shovels, Rakes, Scoops, Post Hole Diggers, Brooms, Pruning Tools...S400 Jobsite™ is up to any task!

SEYMOUR® S400 SAFETY

BE SEEN, BE SAFE – HIGH VISIBILITY CONTRACTOR GRADE TOOLS

Just like our S400 Jobsite™ tools, the S400 Safety™ feature:

- **PermaGrip™**- the same head-to-handle connection we use on Structron®, no skimping on strength here.

- Contractor grade fiberglass handles with **heavy-duty and durable fiberglass insert for added strength.**

- 16 Gauge blades for shovels.

SEYMOUR® S300 DURALITE™

DURABLE TOOLS THAT MEAN BUSINESS

Shovels, Rakes, Post Hole Diggers, Garden Tools, Wheelbarrows and Snow Tools… S300 DuraLite™ occupies a strong footprint in our assortment as durable tools.

Fiberglass tools feature:

- **PermaGrip™** – A rivetless ring of steel connects the shovel neck, handle and hardwood reinforcing rod insert, making it one solid unit. Provides the strongest head-to-handle connection.

S300 DuraLite™ offers exceptional value, **absolute continuity with the rest of the Seymour Midwest brand levels from a planogram perspective** and as always worthy of wearing the Seymour® name!

SEYMOUR® S200

Our 'good' offering is truly special. **Contoured handles with a clear lacquer finish** are features that are second to none. And towards our goal of providing a coherent merchandising platform regardless of the series displayed in your store, **we've invested in blade labels that follow the updated Seymour Midwest format and a series pad print on the handle.** We wouldn't put our name on it if it wasn't good enough to be a Seymour® tool.

MIDWEST RAKE®

The best way to **incrementally grow your business with Seymour Midwest** – add the Midwest Rake specialty coatings tools that are trusted by coatings experts and concrete decor artisans worldwide.

- Innovative high quality patented tools for the coatings industry.
- Widest selection of pro-grade tools and supplies for applying coatings and decorative concrete applications.
- Smart new merchandising solutions and displays.
- Dedicated and knowledgeable sales support to help you grow your business.
- All the tools for any task on a single purchase order.

To request the Midwest Rake® Coatings Catalog – please call 844-SEYMOUR, email us at *Customer.Service@SeymourMidwest.com*, or visit https://seymourmidwest.com/catalogs-brochures.

KENYON S550 IRRIGATION

TOOLS FOR PROFESSIONAL LANDSCAPERS & IRRIGATION CONTRACTORS

Polymer, fiberglass, hardwood – 28° and 35° angle options...that adds up to a lot of trenching shovel options, 24 to be exact and we wouldn't have it any other way. Everyone has their preference when it comes to trenching shovels and **we're here to make sure you have the exact option you, your crew and the job require**.

The same logic and **completeness of product line** is the hallmark of the Kenyon S550 Irrigation™ offering.

Kenyon is the home of specialized irrigation and landscaping tools.

Toolite® S550 MUD & MUCK

MUD & MUCK RELEASING BLADES

"Releasing" Perforated Blade Engineered for Working with Saturated Materials & Sifting

- Breaks Suction When Working in Wet Soils.
- Allows Excess Water to Drain Through Perforations.
- Has Less Surface Area Decreasing the Tendency for Wet Soil to Adhere to the Blade.
- Blade Design is Lightweight, Ergonomic & Will Cause Less Fatigue.
- Superior Tool for Digging in Mud, Muck, Clay & Water Saturated Materials.
- Superior Tool for Sifting Debris from Sand, Gravel & Grain.
- Polymer, Fiberglass & Hardwood Handles.

LINK® HANDLES

AMERICAN-MADE HARDWOOD REPLACEMENT HANDLES

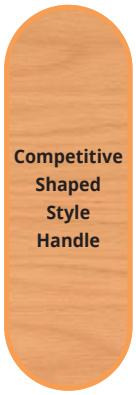

MADE IN USA

OVER 8,000 HANDLE STYLES AVAILABLE

LINK® HANDLES vs. COMPETITIVE

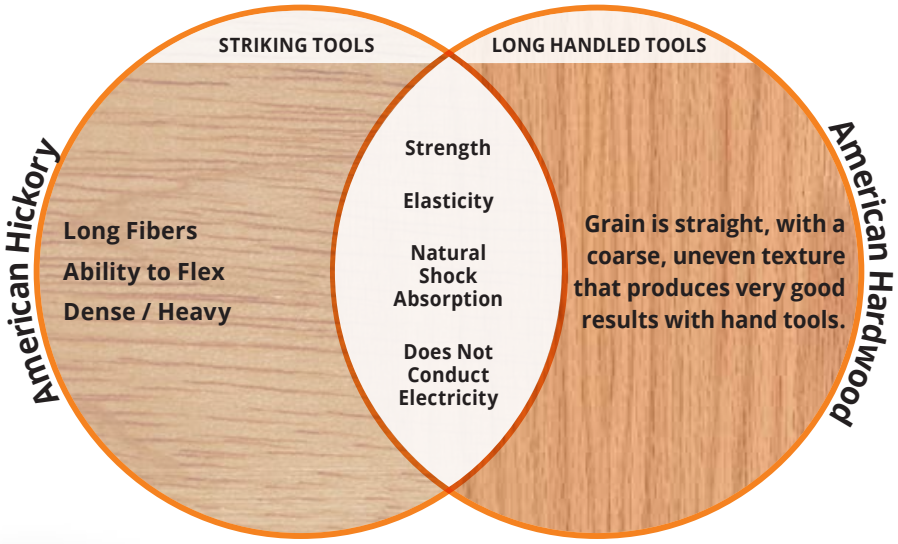

25% Larger Blank	vs.	Thin, Flat Board
Compound Curves	vs.	Smoothed & Rounded
Ergonomics Engineered for Application	vs.	Shaped Handle

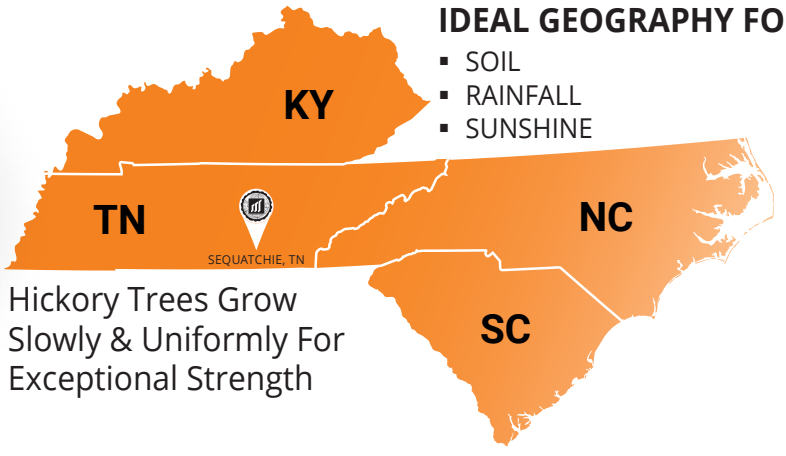

Our handle shape always works with the user. The handle becomes an extension of the body to provide better comfort, control, and safety.

AMERICAN HICKORY & OTHER AMERICAN HARDWOODS

SEYMOUR MIDWEST
LINK® HANDLES
PRECISION AMERICAN-MADE HARDWOOD HANDLES

IDEAL GEOGRAPHY FOR:

- SOIL
- RAINFALL
- SUNSHINE

Hickory Trees Grow Slowly & Uniformly For Exceptional Strength

SHOVELS - ROUND POINT / DIGGING

SUPER SHOVEL®: BEST FOR TOUGH SOIL
Our Super Shovel® tools have "cutting teeth" to penetrate hard-packed, rocky and clay soils and also chop through roots and sod. They're 100% made in Seymour, Indiana USA.

WHY CLOSED BACK?
Closed back shovels have welded backplates to prevent material build-up. These plates also provide extra strength.

SHOVELS - ROUND POINT / DIGGING

SUPER SHOVEL®: BEST FOR TOUGH SOIL
Our Super Shovel® tools have "cutting teeth" to penetrate hard-packed, rocky and clay soils and also chop through roots and sod. They're 100% made in Seymour, Indiana USA.

WHY CLOSED BACK?
Closed back shovels have welded backplates to prevent material build-up. These plates also provide extra strength.

"RELEASING" PERFORATED BLADE ENGINEERED FOR WORKING WITH SATURATED MATERIALS & SIFTING

- Breaks Suction When Working in Wet Soils
- Allows Excess Water to Drain Through Perforations
- Has Less Surface Area Decreasing the Tendency for Wet Soil to Adhere to the Blade
- Blade Design is Lightweight, Ergonomic & Will Cause Less Fatigue
- Superior Tool for Digging in Mud, Muck, Clay & Water Saturated Materials
- Superior Tool for Sifting Debris from Sand, Gravel & Grain
- Polymer, Fiberglass & Hardwood Handles
