POST HOLE DIGGERS - PERFECTION, GIBBS, BUCKEYE, LONESTAR

PERFECTION PATTERN
Has a unique "clamshell" head for digging in sandy, loamy, loosely-packed soils.

GIBBS PATTERN
Combines a single blade with hinge action that acts like a bucket to bring loose soil to the surface. Also called a mud bucket.

BUCKEYE PATTERN
Features strong steel pipe handles welded to the square steel shanks and yoke. Super tough square-cut steel blades are ideal for digging in heavy, rocky soils.

LONESTAR PATTERN
Features strong tubular steel handles welded to the thick yokes for digging in the hardest soils.

MADE IN USA

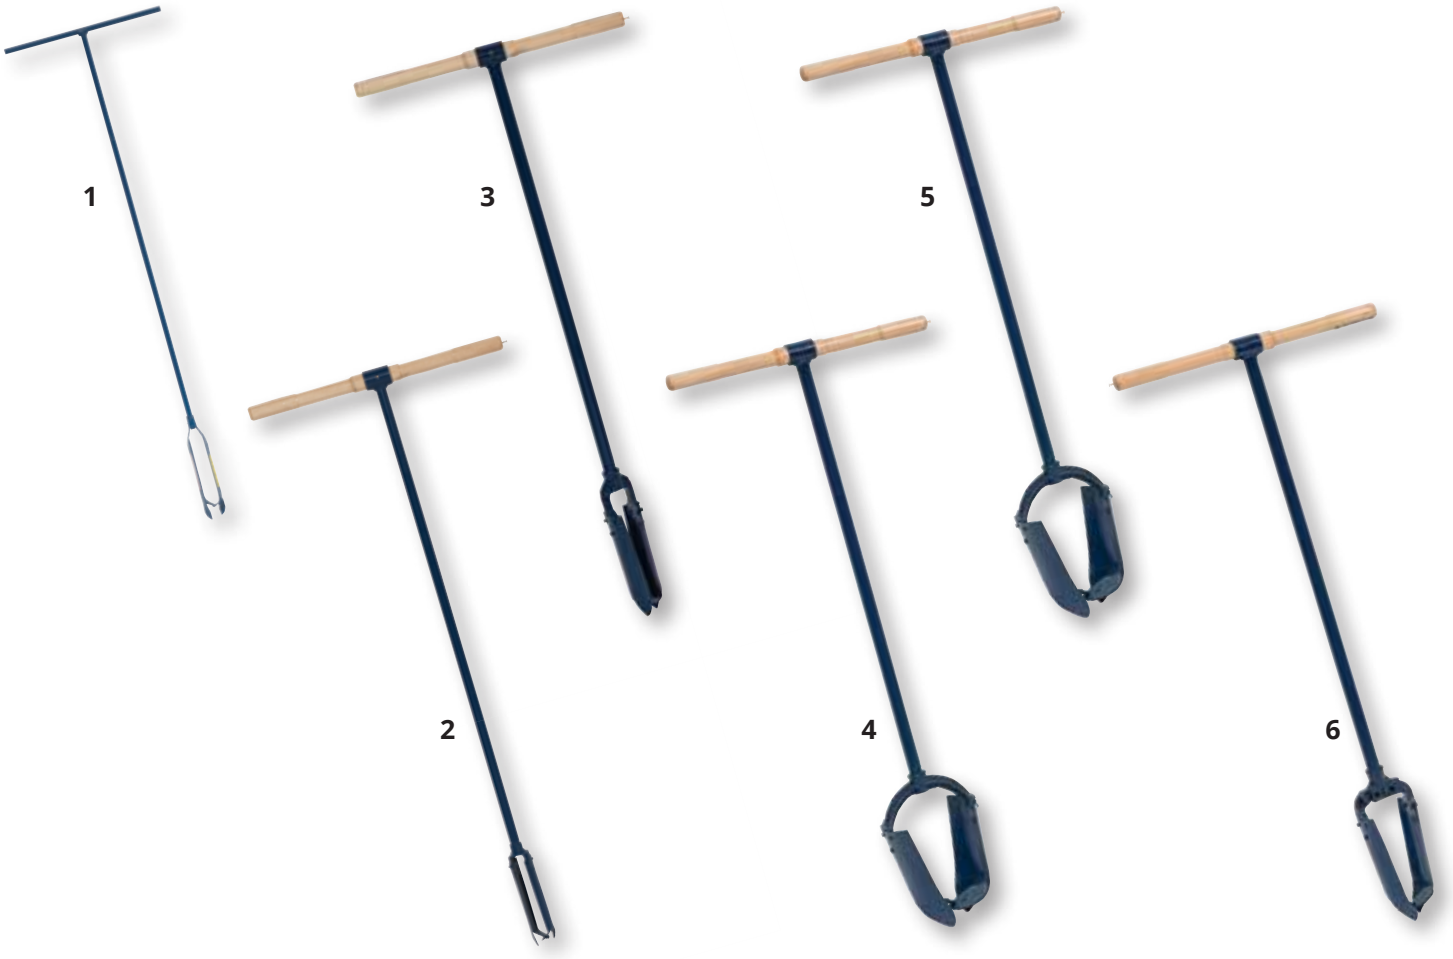

SP16005 - Perfection Blade
SA11003 - Gibbs Blade with Rivets
SP21008 - Gibbs Short Lever Replacement Handle
SP21006 - Replacement Handle for Gibbs Digger
SA11001 - Lonestar Blade with Rivets

TREE FEEDING AUGERS
Bore a 2" diameter hole for applying plant food and water to roots.

IWAN AUGERS
Are designed for general purpose use in a variety of soils. Steel blades are riveted to tough pliable iron yoke. Has a steel shaft with a welded steel t-handle.

ADJUSTABLE IWAN AUGERS
Will bore holes of varying diameters.

RAKES - STEEL TINE LEAF RAKES

S600 & S500 SPRING BRACE RAKES:

- Oversized heavy-duty replaceable spring (SMW #40955)
- 1" powder-coated aluminum handles while our heavy-duty rakes have 15/16" hardwood handles
- Double through-bolted head-to-handle connection
- 24" head with 24 heavy-duty steel continuous tines or 18" head with 18 heavy-duty steel continuous tines

Our **SPRING BRACE LEAF RAKES** are built better to last longer. Intelligently-designed features include continuous tines from handle to tip and a durable spring brace that gives you the power to dig into thickly-matted leaves. Most of our rakes have single or double through-bolted heads that won't get loose or wobbly.

SUPERIOR STRENGTH: WELDED AND RIVETED

Our Kenyon S550 Irrigation™ (42604 & 42600) are heavy-duty and long lasting tools. The head-to-handle connection features a unique tapered steel plug that is press fit into the powder-coated aluminum handle and then drilled and riveted all the way through. The bow rakes also feature a steel bow that is moved closer to the edge of the head, providing greater lateral stability, and is welded on both the front and back sides of the head for greater strength.

RAKES - STONE, LEVEL HEAD, ASPHALT & THATCHING

LEVEL HEAD RAKES have teeth designed to gather small weeds and straw. They are also ideal for raking small clods and for seedbed preparation while the flat side is used for leveling.

WHY THATCH?

Flanged teeth on both sides are designed for removing then collecting thatch and dead grass from lawns.

ASPHALT RAKE ADVANTAGES:

Heavy-duty construction, designed for tough use in asphalt paving. Long shank for extra reach to prevent asphalt build up.

LANDSCAPE RAKES

Have rounded teeth which provide a smooth non-gouging raking action, while its striking edge is excellent for grading. Strong wrap-around bracing and heavy-duty double rib construction maximizes head stability and ensures long-lasting performance, even under the heaviest professional use.

GREAT RAKE II

The name says it all... this is a "great rake" for raking and leveling. The long curved teeth provide more efficient grading on the backstroke, while the deep grading edge allows for superior leveling.

Replacement parts available for purchase.

SCREENING RAKE DESIGN
This rake is specially designed for sifting, grading, and screening. It is an excellent tool when you need to sift or screen stones and debris from sand or fine soil.

HOMEOWNER LANDSCAPING
Designed with the consumer in mind, the 90324 & 90330 landscape rake comes complete with a solid aluminum head, "push-pull" bracing to eliminate head wobble, and a 60" hardwood handle.

Replacement parts available for purchase.

RAKES - SPECIALTY

WHY A DUAL PURPOSE RAKE?
A Seymour Midwest exclusive. This innovative and versatile tool has two teeth profiles. The short teeth are used for breaking up hard packed clay and grading, while the long teeth are for wet clay and general raking.

CHISEL TOOTH RAKE DESIGN:
The aggressive chisel-sharp teeth and forward grading edge set this rake apart from our others. It is an excellent choice when you need to penetrate and break up hard soils. It also works exceptionally well when spreading concrete or stone.

WHAT IS A MCLEOD RAKE?
A favored tool for firefighters when clearing fire lines, but also a heavy-duty tool for clearing any form of trail or pathway... or even creating a new planting bed or garden. The head measures 9" tall x 11" wide with 4" reinforced teeth.

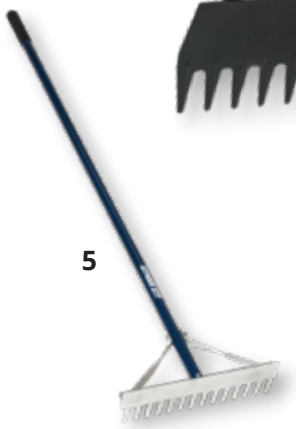

MORE EFFECTIVE THAN A SHOVEL
For many landscaping, irrigation, and utility settings. A great tool for quickly backfilling trenches and moving soil and aggregate materials. Heads are replaceable.

COMPACT FOR A PURPOSE
A compact 50" length rake that fits in a trailer tack box. This small 14" head size has straighter pitched teeth and a generous grading edge and is easy to handle.

Replacement parts available for purchase.

A "UTILITY INFIELDER" YOU CAN PLAY EVERYDAY
The perfect size for restoring the pitching mound to a professional surface, just scarify, level, tamp and repeat. Great for shaving and carving the pitching mound. The flat front of this tool can be used as a tamp in secondary areas where light tamping is required.

THE PROFESSIONALS CHOICE
Knocks down for easy storage. The perfect tool for grooming infields and beach volleyball courts. The head was designed specifically for the sports turf industry, but it is also highly respected in the professional lawn and garden industry. The high straight edge is excellent for grading.

WIRE WOVEN TEETH
A safe and effective way to seasonally weed lakes, ponds, golf course water traps. Wire woven through heavy-duty teeth uproots aquatic weeds.

A FLOATING RAKE?
Use it to skim floating aquatic vegetation and algae from the water. By shortening the handle and removing the float, you have a professional-grade landscaping rake, excellent for dressing beach sand. Float colors may vary.

SIMPLY AN AWE-SOME TOOL
The AWE, exclusive to Seymour Midwest, is the most effective bottom-cutting weed removal tool available on the market. No need for dangerous and expensive chemicals; this tool removes weeds at their source. You don't have to worry about the reinforced blades bending under a heavy load of weeds.

SP30100 - Strip, AWE - 28" Super Heavy-Duty Stiffener Bar
SA30018 - 8" Quick Connect Splice for AWE/Lake Rake
SA10024 - AWE 14" Serrated Blades (Set of 2)
SP50065 - 50' Poly Rope for Lake Rake
Additional parts available for purchase.
