NOMINAL WET FILM THICKNESS CHART

Description	Notch Width	Notch Depth	WFT (in Mils*)
1/8" V-Notch	1/8"	1/16"	8 - 12
3/16" V-Notch	3/16"	3/32"	15 - 20
1/4" V-Notch	1/4"	1/8"	20 - 28
3/8" V-Notch	3/8"	1/4"	30 - 45
1/2" V-Notch	1/2"	3/8"	46-55
56-74 Mils V-Notch	~	~	56-74
75+ Mils V-Notch	~	~	75+

What squeegee notch width / notch depth should I use to apply 10 mils of epoxy? At Midwest Rake®, the answer is **always** refer to our "Nominal Wet Film Thickness Chart" to determine the appropriate notch width / notch depth required for your job. Our squeegee blades have a unique design - shallower depth notches enable Midwest Rake® squeegees to stand out from the competition ensuring a consistent and tight range of wet film thickness delivery.

This chart conversions are not absolutes and are provided to help guide blade selection. Many factors can contribute to the actual wet film thickness produced; including: pressure exerted on the blade, porosity of the substrate (concrete) being coated, material being used and if and how the back-roll is completed. If you have any questions or would like to discuss the particulars of your project – please contact us at 844-SEYMOUR and we would be more than happy to provide guidance in the application squeegee selection process.

Our general purpose squeegees are ideal for pushing or pulling liquids off from hard surfaces. Each is sold as a complete tool – handle, frame and blade. Our straight-edge squeegee has a stiffer blade for a more robust scraping action. Replacement blades are always available for all of these items. Our rollers have stainless steel axles that roll water off floors, pavement, tennis courts, golf greens and sports fields. The heavy-duty aluminum frame construction and stainless steel axles ensure the roller stays secure.

PVA ABSORBENT ROLLERS
Are great for hard surfaces like concrete and asphalt.

SA10047 - 24" Non-Absorbent Replacement Roller with End Caps
SA10051 - 36" PVA (Blue) Absorbent Replacement Roller with End Caps

CUT STYLES OF RING TIPS

Slant *Slant Offset* *Blunt* *Blunt Offset*

HOG RINGS are used to prevent swine from rooting in the ground. They are made from copper coated wire and come in various sizes.

Rings are defined by wire gage or diameter, material properties and cost, pattern, and cut. The ring wire materials below are listed in order of relative cost, with the least expensive listed first. For best value, select the lowest cost material that has the properties needed for the intended application.

BRIGHT BASIC STEEL RINGS are the most economical and are used for general purpose applications such as attaching tags.

COPPER COATED RINGS are economical and used for hog rings and general purpose applications.

GALVANIZED STEEL RINGS are best for applications such as fencing where moderate cost and resistance to rust are important.

ALUMINUM RINGS are relatively expensive, light weight and won't rust or corrode making them ideal for salt water use, cages and traps, and other special requirement applications.

STAINLESS STEEL RINGS are the most expensive and won't rust or corrode making them ideal for salt water use, cages and traps, food industry applications, and other special requirement applications.

HILL PATTERN RINGS close in a triangle shape.

BLAIR PATTERN RINGS close in an oval shape.

PREBENT RINGS reduce the effort needed to close the rings thus reducing hand fatigue.

ROPE TIE PATTERN RINGS are ideal for clamping rope and cable.

UPHOLSTERY PATTERN RINGS are designed to hold fabric to furniture frames.

SLANT CUT RINGS are best for applications requiring penetration such as upholstery and hog rings.

BLUNT CUT RINGS are best for applications such as fencing. They have no sharp points to cut or pierce, making them safer to handle.

NON-OFFSET RINGS close with the tips nearly touching. They are ideal for fastening large diameter materials such as fence wire where a small gap between the tips is OK.

OFFSET RING design allows the ring tips to pass for complete closure. They are best for fastening small diameter materials that could pass through a small gap.

RING FASTENERS are used for fastening wire fences, slit fences, steel mesh for wall reinforcement, fish traps, crab pots, animal cages, upholstery, and attaching tags. They are also used to clamp rubber tie-down straps and for clamping rope. Seymour rings have a variety of uses in arts and crafts such as fastening holiday wreath materials.

TAB-TOP BOXES: Packaged rings come in convenient tab-top boxes that make them ideal for effective pegboard merchandising. Each box holds from 25 to 100 rings depending on the size of the rings.

10-PACK DISPENSER BOX: Packaged ring boxes are packed in convenient dispenser cartons with 10 tab-top boxes in each dispenser carton.

BULK RINGS

Bulk rings prices are listed in the price list and special order rings are available on a quotation basis. For special needs, just provide samples or specifications.

BURNS CLEAN

Seymour Midwest Fire Blox™ fire starters meet the strictest air quality codes in the country. Product complies with the South Coast Air Quality Management District Rule 1174.Ref.C14

CALIFORNIA PROP 65

Warning: Combustion of this product will result in the emission of carbon monoxide, soot and other combustion by-products which are know by the state of California to cause cancer & birth defects as well as reproductive harm. For more information go to www.P65Warnings.ca.gov

In California, use of this and other solid fuels may be restricted at times by law. Call 1-877-466-2876 or check www.8774noburn.org before burning.

WHY SEYMOUR FIRE BLOX™ FIRESTARTERS:

Starts all types of fires

- ***Each piece measures 1.75" x 1.5" x .5"***
- Superior to liquids and other solid starters.
- Great for starting firewood, pellets, coal, and charcoal.
- Eliminates the need for liquids, kindling, and newspaper.

Works great even when it's wet

- Pieces burn hot for about 12 min. for fast, sure starts.
- Lights quickly, even when wet.
- Will ignite even damp firewood.

Safe to use anywhere

- Can't leak, spill, flash, flare-up, or explode.
- Safe to use both indoors and outdoors.
- Non-toxic.
- Stores safely anywhere with long shelf life.

Economical - just pennies per light

- Need only 2 or 3 pieces to start.
- A 24-pc. package provides 8-12 starts.
- Pieces are scored and separate easily.

Burns clean

- Environmentally friendly
- Meets the strictest US air quality codes.

FOR CAMPFIRES -

Use one or more Fire Blox with twigs / wood scraps under the logs. Starts in rain and moderate wind. Ignites even damp wood.

FOR CHARCOAL GRILLS -

Place 3 Fire Blox cubes on edge in charcoal, leaving air space as shown, and light frayed edges of cubes.

FOR FIREPLACES -

Place one or more Fire Blox under at least 3 logs and light; no kindling needed.

FIRESTARTER & STACK•IT BRACKET

Seymour Fire Blox™ capture instant add-on sales in a variety of store environments. Merchandise them with:

- Outdoor grills and outdoor fireplace supplies
- Patio firepits, outdoor heaters and chimineas
- Camping supplies including hunting, fishing and backpacking
- Indoor fireplaces, wood stoves and heaters

COLORFUL FLOOR DISPLAYS

Can double or triple your inventory turns by attracting customer attention and using space efficiently. Great for end-caps, sidewalk displays, and seasonal merchandise. Ask for a complimentary copy of our brand new merchandising ideas guide with many standard display assortments.

STEEL MOBILE RACKS

Are easy to assemble and can be used indoors or outdoors in any weather. They attract customer attention, and display tools and use space efficiently.

USE SPACE EFFICIENTLY AND MAXIMIZE IMPACT

We custom-design planograms to maximize customer appeal and sell-through. Careful planning ensures that premium wall space yields maximum return on inventory investment.

MANY PLANOGRAM OPTIONS ARE AVAILABLE

With a variety of long handled and garden tool assortments. We develop planogram systems for retail hardware, lawn and garden, industrial supply, landscape wholesaler, irrigation wholesaler, utility wholesaler, fencing dealer / distributor, lumberyard, farm and ranch supply, and other markets.

To get started, contact our merchandising experts at Customer.Service@SeymourMidwest.com.
