A1 · RESPONSE SHEET

Your work and reflections

Use the readings, cards and full instructions in the learner workbook. This sheet gives space for your own work. All project and industry data in the activities are fictional.

Learning ID: _____ **Date:** _____

Supports I used: _____

Session 1 • Reading, Communication, Collaboration

A1-Q01 • Find the evidence

Mark the infrastructure sentence in the workbook. Explain a daily-life use and a trade use; identify the wording that helped.

A1-Q02 • Tell a short history

Some routes began as:

People improved them by:

Different road types still exist because:

A1-Q03 • Build the flow

Put the five stages in order and explain their purposes.

Order	Stage	Purpose
1		
2		
3		
4		
5		

One connection I explained to my partner:

A1-Q04 • Match and check

Need from the workbook	My equipment code
1. Transport mixture	
2. Move mixture toward the screed during placement	
3. Separate mineral material by size	
4. Compact placed material	
5. Help control the layer's thickness	
6. Prepare the mixture	

Why the paver and roller have different jobs:

A1-Q05 • Check a resource claim

My question about the nearby gravel-pit claim:

Two source types or materials relevant to paving:

A1-Q06 • Make the connection

Road type	Brief description of its running surface or type	A possible use (“could…”)

Road-user group	An access question this group might ask

A1-Q07 • Team check

My explanation / clarification question:

My contribution and a useful contribution from my partner:

The map improvement we agreed on:

Instructor observation or follow-up note:

A1-Q08 • Exit note

A road's purpose differs from an equipment item's purpose because:

A term I want to practise:

Session 2 • Numeracy, Digital, Writing

A1-Q09 • Who does what?

Role in the fictional brief	Organization / contributor
Road owner	
Contractor	
Funding contributor 1 and amount	
Funding contributor 2 and amount	
Funding contributor 3 and amount	

My funding-total calculation, with units:

Why funding, ownership and performing the work are different roles:

A1-Q10 • Find what needs confirming

Item	What I need to confirm	Person, issuer or document that could establish it
EPS		
MMCD		
Funding for a real project		

One precise follow-up question:

A1-Q11 • Calculate and interpret

Use only the independent North/Central/South table.

1. Employer total and working; worker total and working:

2. Central's fraction of employers; the whole I used:

3. Total contract value and North-versus-Central difference, with working:

4. One supported comparison; why this table cannot establish B.C. totals:

5. A different method I used to check one answer:

Optional extend: Central's percentage and why contract value is not profit:

A1-Q12 • Create, check, save and find

Keep your digital file as the main evidence.

File name: _____

Where I saved it: _____

A source value I checked and how I checked it:

A total/formula I checked, or how I checked totals in a tool without formulas:

How I found and reopened the file:

My tool turn was observed by: _____

If completed on paper first, record the planned tool turn:

A1-Q13 • Project note

Write four to six sentences: fictional owner and contractor; total funding and one contributor; a labelled fictional statistic; one requirement needing confirmation.

My partner understood this:

One useful edit I made:

Session 3 • Problem solving, Adaptability, Creativity and innovation

A1-Q14 • Check the claim

1. The word that makes C1 too broad:

2. The comparison C2 actually supports:

3. Two missing pieces of information:

4. My revised claim, up to three sentences, including a question for a qualified reviewer:

A1-Q15 • Generate and choose

Sketch two different ways to organize the three answers. Use extra drawing space if needed.

Idea 1:

Idea 2:

My choice and why it could help the visitor:

First draft — original task conditions, up to 150 words. Keep this version before receiving the change card.

First-draft word count: _____

A1-Q16 • Adjust the plan

Complete after the instructor gives you the change card.

What changed; one feature to keep; one feature to revise:

The strategy I used to keep working:

Revised draft — use the new requirements on the card.

Revised-draft word count: _____

A1-Q17 • Test and improve

My reader could locate these answers; this part was unclear:

One justified improvement I made after feedback:

Final word count: _____ Both drafts kept: _____

A1-Q18 • Reflect and transfer

“I checked a claim before accepting it.” My evidence:

“I changed my approach when the requirement changed.” My evidence:

“I tried an idea and improved it using feedback.” My evidence:

A habit I can transfer to a real job document:

One strength I used: _____

One next practice goal: _____
